

Integra Village at Tymber Creek

MULTIFAMILY

At Integra Village at Tymber Creek, the amenity interiors support a boutique, market-rate identity through warm layered finishes, lounge-driven planning, and a relaxed social atmosphere.

Representative highlights include the clubroom, bar and entertaining area, and café-style banquette seating, while the overall design ties back to the property's residential finish package of wood-inspired flooring, quartz surfaces, matte-black fixtures, and shaker cabinetry for a cohesive Daytona Beach product story.
