

Aston at Town Center

MULTIFAMILY

The Aston at Town Center is a 278-unit, five-story podium-wrap community in Jacksonville, Florida, designed at 61 units per acre with an urban architectural expression of brick, black iron, and warm contemporary materials.

Interior design extends that character through double-height club spaces, sculptural lighting, and a hospitality-driven amenity palette, while the resort pool and pavilion, the two-level fitness and simulator program, and the cyber and lounge spaces serve as representative highlights of a broader luxury resident offering.
