

Calirosa

SENIOR LIVING

Calirosa is a 55+ active adult community in Kissimmee, Florida, serving 152 apartment homes with interior design scope spanning amenity spaces and model interiors. Inspired by the area's natural Florida landscape, the design creates a warm, hospitality-driven environment tailored to senior living.

Interior spaces combine soft residential finishes, layered lighting, and comfortable furnishings to support both daily use and social connection. Standout features include the clubroom with dual fireplaces, the wine lounge and café areas, and the pool veranda, selected as representative highlights of a broader amenity program.
