

Integra Heights

MULTIFAMILY

Integra Heights' amenity interiors in Clermont, Florida, were designed to support a relaxed, resort-inspired suburban lifestyle through light-filled volume, layered lounge settings, bold teal accents, and warm contemporary finishes.

Standout spaces include the double-height great room, fireplace lounge and beverage bar, and co-working/study niches, representing a broader amenity environment that strengthens daily usability, resident engagement, and the project's market-rate positioning near Lake Louisa State Park.
