

Corsa at Estero Crossings Model

MULTIFAMILY

Corsa's model merchandising uses sage, blue-gray, linen, and terracotta accents to create a calm, contemporary residential identity that complements the project's more energetic amenity spaces.

Representative highlights include the living room, primary bedroom, and styled seating area, while the overall presentation reinforces the unit finish package of quartz, stainless steel, wood-look flooring, and updated bath detailing for a polished market-rate Estero product.
