

Integra Towers - Model

MULTIFAMILY

Integra Towers' model merchandising supports lease-up with a warm contemporary palette of neutrals, camel tones, and deep teal accents that align with the property's upscale Lake Nona positioning.

Representative highlights include the living room, open entertaining area, and bedroom suite, where layered textiles, abstract art, and clean-lined wood furnishings present a polished but livable residential identity for the community's one-, two-, and three-bedroom product.
