

Vida at Lakewood Ranch

MULTIFAMILY

Vida at Lakewood Ranch is a 304-unit, two-story market-rate garden community in Lakewood Ranch, Florida, designed at 10.75 units per acre around a central lake and resort-style amenity core.

Architecture establishes a relaxed coastal character through breezeways, low-rise massing, and open space planning, while interior design brings energy through bold color, texture, and hospitality-scaled social spaces. The pool and outdoor amenity spine, clubhouse and work lounge areas, and fitness and pet amenities serve as representative highlights of a broader luxury resident offering.
